**AWARD:** This is a credit only event.

**TRAIL DESCRIPTIONS:** Holliston was incorporated in 1724 and named in honor of Thomas Hollis, Esq. of London, England, a benefactor of Harvard College who never visited Holliston.

The 10km walk is comprised of two loops and the first loop, entirely on flat, paved surfaces, is also the 5km route. This loop will take you past an elegant 8-arch railroad bridge, the Bogastow Brook Viaduct, built in 1846 by the Boston and Worcester Railroad from granite quarried in Holliston. After walking under a 1-arch railroad bridge (listed in the Guinness Book of World Records as the smallest railroad bridge in the world), you will be in Mudville where Irish immigrants, who arrived to build the railroad, settled. A tribute to Casey at the Bat will be seen before returning to the finish for 5km walkers and checkpoint for 10km participants.

The second loop of the 10km route includes two short, gentle hills and travels through the Thomas Hollis Historic District with stately antique colonial homes dating to the early 19th century and more current residential neighborhoods. At the high school, you'll see a wooden panther carved by chainsaw artist and Holliston native Jesse Green.

The walk routes are mostly on paved surfaces with a few slight inclines and have an AVA rating of 1A, suitable for baby strollers, but difficult for wheelchairs due to some missing curb cuts.
